Invitation to 2019 Canoe Slalom Pyrenees Cup

Dear President,
Dear Secretary General,

The Organizing Committee of the 1st Pyrenees Wildwater Cup cordially invites you to attend the canoe wildwater competitions that are going to be held in June of 2019.

The competition races are sport orientated, to be useful for wildwater training and improvement of technical performance prior to the World Championships that the city is going to host in late September. The individual inscription gives wider opportunities to participate and combine sport schedule.

The Pyrenees Cup Organizing Committee welcomes you to join our 2019 events.

Parc Olímpic del Segre

The Parc Olímpic del Segre is constructed in a branch of the river Segre, which was re-channelled after the damage caused by the exceptional flood of 1982. The slalom course's specific features are as follows:

- Length : 220 m
- Drop : 6,4 m
- Flow : 12 m³/s
- Course features: concrete bottom, banks and obstacles of natural boulders
- Spectators capacity: 5.000 people

The wildwater course is 130 m long with a drop of 1,5 m. The designed flow ranges from 3 to 10 m³/s.

The design of the artificial canals includes a system of complementary canals and mechanical conveyor belts which enable canoeists to return to their starting point without having to leave their boats. The dynamic conception of the whole facilities leads to intensive use all year round and separation of canoeists according to their levels of skill and ability.

The drop in the Slalom course is created naturally via channels that branch from the river Segre, with a very gentle slope. The feeder canal, 165 m in length, and mainly the flat water canal, 650 m in length and 20 m in width, are set aside for training in flat water canoeing and the necessary practice that sport lovers require in waters with a steady current.
